Classement EMLYON des Revues Académiques

Liste entrant en vigueur au 1^{er} septembre 2014

Classement des revues académiques d'EMLYON Business School

Le classement des revues académiques d'EMLYON a été élaboré par le Comité Scientifique d'EMLYON, sur la base de contributions multiples combinant avis d'experts externes, classements existants, facteurs d'impact, et examen des revues. Ce classement constitue un outil d'aide à la décision, tant en matière de définition des stratégies de publications qu'en matière d'évaluation des chercheurs.

La liste des revues classées *traduit* le positionnement stratégique d'EMLYON. Par conséquent, elle inclut à la fois de nombreuses revues en économie et en gestion, et des revues d'autres disciplines (sciences juridiques, psychologie, sociologie, mathématiques, etc.) contribuant au positionnement stratégique d'EMLYON &/ou dans lesquelles les sciences de gestion puisent abondamment. Il va de soi que les recherches publiées dans d'autres formats (livres, chapitres, rapports, etc.), et la diffusion des résultats de ces recherches relèvent également de la mission de la faculté d'EMLYON.

Le classement des revues académiques d'EMLYON est organisé en cinq catégories.

Revues de rang A+. Un très petit nombre de revues scientifiques unanimement reconnues au plan international comme étant les meilleures de la discipline.

Revues de rang A. Un petit nombre de revues considérées unanimement comme de très grande qualité au plan international, dont le niveau s'approche des meilleures revues de la discipline. Il s'agit essentiellement de revues généralistes, souvent de grande tradition et à grand impact académique. Les comités de lecture et les comités éditoriaux de ces revues sont composés des meilleurs chercheurs de la discipline.

Revues de rang B+. Revues scientifiques de très bon niveau, reconnues et diffusées au plan international, sans toutefois faire partie des toutes premières revues de la discipline. On y trouve des revues généralistes et spécialisées, et des revues francophones diffusées au niveau international.

Revue de rang B. Revues dont la qualité des articles est généralement inférieure à celle des revues de rang supérieur, soit parce qu'elles traitent de thématiques plus pointues et disposent donc d'audiences plus étroites, soit parce que n'étant pas de langue anglaise elles s'adressent à des auditoires géographiquement restreints.

Revue de rang C. Revues à comité de lecture dont la qualité des articles est inférieure à celle des revues B, &/ou dont la diffusion est très restreinte, &/ou dont les dispositifs de sélection sont moins exigeants, &/ou dont la notoriété est très faible.
